EXPERIENCE

BNP Paribas CIB – CTO Office
IT Production – IT Business Analyst

Jersey City, NJ
Jul 2024 – Present

- Americas PM for several InfoSec projects to deploy software solutions and secure CIB's core compute infrastructure, meeting all requirements to comply with **NY DFS NYCRR pt.500**
- Coordinated the critical infra hardening of **17+ technologies** across the region used by all BNPP entities, implementing **CIS V8's 18 security controls** to meet **DORA (EU)** regulation requirements
- Power BI workspace Admin for CTO Office, managing CI/CD, IAM, & ETL flows to enable sub-teams to deploy dashboards at-will
 - Enabled rapid decision making for leadership by providing real-time visibility on the IT Production org's Capital & Operational Expenditure budget through PBI dashboards, highlighting technology costs (HW, IaaS, PaaS, SaaS) & headcount budget/forecast

Selected Achievement: **Closed out a high-impact, flagship project to implement network micro-segmentation (zero-trust) solutions across production environments of all CIB core/business applications, hosted on ~1,500 physical servers**

- Demonstrated technical expertise by navigating project through several infrastructure roadblocks: **low latency** trading application performance impacts, improper application hosting (multi-app servers), **multicast/UDP** traffic application requirements, etc.
- Successfully revamped project workstreams to adapt for a **3x scope expansion** emerging halfway into project timeline, to adapt for cloud virtualization delays coinciding with a stringent regulatory deadline
- Expertly managed leadership relationships in a global IT landscape to ensure high-risk deliverables are prioritized and achieved

BNY Mellon – Investment Management
Core Engineering – IT Analyst

Jersey City, NJ
May 2023 – Dec 2023

- Conducted User Acceptance Testing & Quality Assurance for a high-impact project affecting **400+ applications** globally
- Developed a Power BI dashboard to monitor Core Infrastructure OS version compliance and remediation plan KPIs & trends

Selected Achievement: **Coordinated the enterprise-wide remediation of OS/software to ensure active vulnerability management**

- Accelerated timeline by **25%** by creating action plans after with Product Owners after identifying **15+ shared software constraints** between various applications across multiple business lines
- Reduced project backlog by **60%** by identifying misassigned tickets and creating corrective workflows in ServiceNow to automate ticket assignment through verification check points, and implement corrective actions as needed
- Removed process pain points for product teams by automating **90%** of action plan reporting with Excel VBA macros

EDUCATION

Texas A&M University – College of Engineering
B.S. Technology Management, Minor in Business Administration

College Station, TX
May 2024

Undergraduate Achievements:

- **Urban Resiliency. AI Laboratory – Research Assistant**
 - Developed Python scripts to clean & query data for LLM training in collaboration with Dr. Ali Mostafavi on the following project: Disaster Informatics Solutions: Integrating Human and Machine Intelligence for Resilient & Smart Emergency
- **Software Development Release Optimization – Student Researcher**
 - Developed a CI/CD pipeline framework in collaboration with Dr. David Sweeney, identifying critical stages where ITIL 4 practices should be applied to ensure secure software development and achieve ~99% uptime across deployed services

Certifications:

- **CompTIA Security+** [Verification ID – ZYQZ2EP61FQQ1R5L \(IAT Level II\)](#)
- **PeopleCert ITIL 4** [Verification ID – GR671506197AJ](#)

SKILLS

Technical: PowerShell & Bash Scripting, Python, Linux, SQL DBA, Kubernetes K3/K8s, REST APIs, Elasticsearch, Ansible, HashiCorp

Security Tools: Illumio, Tanium, Nexpose, CyberArk, Dynatrace, MS Intune, Phosphorus xIoT, SailPoint, Nessus, Splunk, MS Sentinel

BI /Automation: Power BI & Excel VBA(Expert), DAX, Kibana, ServiceNow Flow Designer, Jira, QlikView, Confluence, Power Apps

Soft Skills: Technical Concept Translation, Executive/C-Suite Reporting, Relationship Management, Time Management, Organization
